Revised 10/9/2024
APPLICATION FOR SEWER SERVICES

New Service _____ New Owner _____ (check one)

Applicant Name _____ Phone # _____

Mailing Address _____

PROPERTY IDENTIFICATION

Former Owner _____

New Owner _____

Location _____ Tax Parcel # _____

Residential _____ Non-Residential _____ Number of Units _____

Type of building to be served _____

I hereby agree to be subject to all rates, rules and regulations now and hereafter to be prescribed by the Mid-Centre County Authority.

I, the consumer, understand that I am solely responsible for the cost incurred during installation plus the current tap fee.

It is also understood and agreed that if at any future time it is found that the use or number of units is different than that stated in this application, that the difference would result in higher charges, from the date of this application shall immediately become due and payable to the Authority.

There will be a time limit on how long a permit, to connect to the public sewer system, may be held and not used.

1. A permit may be held for twelve (12) months with no charge.
2. At the end of the twelve (12) months a non-usage fee of 70% of the current sewer rental, per Equivalent Dwelling Unit (EDU), will be charged for the following twenty-four months.
3. At the end of the twenty-four months to continue to reserve the capacity at the sewage treatment plant, the full amount of the current sewer rental, per EDU, must be paid or you will forfeit the EDU. Following the 36 months, to resubmit the permit, you must pay the current tapping fee in effect at that time and wait for the availability of the EDU's.

4. If at any time in the three-year period, the property is physically connected to the main sewer line, the full amount of the current sewer rental, per EDU, will be billed.
5. New connections will be billed for sewer rental from the time they are physically connected to the main sewer line whether or not the dwelling is habitable.

All connections and line installations must be inspected by Authority personnel. One business day's notice is required for an inspection. If the connection and line is not inspected, the property owner will be required to dig up and expose the line at his/her expense. One inspection will be given with the permit, all additional inspections are \$50 each.

Permit fees will be refunded within thirty (30) calendar days of the permit issue date, provided construction has not started and the permit not utilized. All requests for refunds must be made in writing to the above address. There will be an administration fee of \$100.00 for all permit refunds.
